### 4T Super 5W40

#### Description

A special fully synthetic four-stroke engine oil developed for use under extreme low temperatures. This oil is specially designed for use under arctic conditions. The product is based on a combination of synthetic base oils, among others ester and highly advanced additives. This engine oil has through its composition a high resistance to oxidation and viscosity loss under high load and ensures a good flow behavior at low temperatures. This engine oil has the following typical properties:

- a very low tendency to evaporation
- a high and very stable viscosity index
- a good resistance against shearing
- a high resistance against aging
- a safe lubrication film at low and very high temperatures
- a very good detergency and dispersion power
- a very strong protection against wear, corrosion and foaming

#### Application

A fully synthetic four-stroke engine oil, designed for motorcycles under race conditions at low temperatures. This oil has proven its quality in engine tests and under the most extreme conditions at very low temperatures.
